SWM International, Inc. - Global Business Intelligence Report Developer and Administrator

Managing, Administrating, and Developing for a global Oracle R12 OBIEE and Discoverer roll - out.

We have locations in Brazil, Poland, France, New Jersey, New York, South Carolina and Atlanta.

Oracle modules used: HRMS, PO, AP, AR, ONT, WIP, WSH, BOM, INV, FA, GL, Advanced pricing, Planning, Cost management, Trade management, Quality.

Software used : TOAD, SQL PLUS, Oracle rdbms 10G, rdbms 11g, Oracle Apps R12, Noetix Views, Oracle Discoverer, Oracle PL/SQL, Oracle SQL, Oracle Reports, Oracle BI Publisher, Oracle OBIEE. Informatica PowerCenter

My primary functions have been to

1. Design and manage the global reporting strategy utilizing Oracle OBIEE, Informatica, Oracle BI Publisher, Oracle Discoverer and Noetix Views for the global R12 implementation.

2. Work with end users and location management to gather reporting requirements and develop custom reports for the needs
3. Develop all custom reports
4. Use the Discoverer Administrator product, OBIEE Repository , and Informatica PowerCenter to manage data sources and security for the reporting solution.
5. Develop custom extensions to the Oracle R12 applications to accommodate the special functional needs of the customer. In this case, it is a manufacturing extension to meet the additional data capturing needs of the customers manufacturing procedures.
6. Train customer location employees to run the reporting tools.
